Volvo owner for over 12 years... Just bought a 1998 v70 turbo wagon with just over 90k. I inspected the timing belt and found "Volvo 9 440 383 16211 142-23" on the belt. I know this could be the original or replaced by a volvo dealer in the past. The belt is in excellent shape. Should I replace just to be 100 % or just check every so often?
