Event Management

Event management is the oversight of many administrative details for events such as conferences, festivals, or weddings. An event manager works with staff and vendors to make sure the event is executed according to plan. While event planners tend to work on the overall event concept, event managers deal with the details of its execution.

Event Management: What Is It? - The Balance Small Business

Event management is the application of project management to the creation and development of small and/or large-scale personal or corporate events such as festivals, conferences, ceremonies, weddings, formal parties, concerts, or conventions. It involves studying the brand, identifying its target audience, devising the event concept, and coordinating the technical aspects before actually launching the event.

Event management - Wikipedia

Event Management, as defined by ITIL, is the process that monitors all events that occur through the IT infrastructure. It allows for normal operation and also detects and escalates exception conditions.

Event management (ITIL) - Wikipedia

At its most basic, event management is the process of using business management and organizational skills to envision, plan and execute social and business events. People who specialize in event management work with budgets, schedules, and vendors to create the best possible events for their clients.
