The MEP Giants program lists the top 100 mechanical, electrical, plumbing (MEP), and fire protection engineering firms in North America. The in-depth analysis of these firms appears in the August issue and reveals what's going on in the industry and how it has changed over the past few

years.

Consulting - Specifying Engineer | MEP Giants

Over the past few decades, fire protection engineering services in buildings have evolved to tackle unprecedented new hazards and threats. Fire and building safety involve many areas from compliance review to communications systems to the design of fire detection. We partner with developers, owners, building code officials and architects to identify risks, review building and fire code requirements, and help deliver the most appropriate fire safety design for your buildings.
