Perceptual Theory
problems, theories,
and models, they offer
a number of reasons
for the current
weakness of perceptual
explanations. New
theoretical approaches
are also proposed.

In fact, the study of perceptual constancies is a major area of current perceptual theory. If one accepts the Axiom of Perceptual Variability then the search for such constancies is a fundamental problem of perception. The study of perceptual constancy is well documented and so will not be discussed further.
