SimCoupler model block will automatically match those defined in the PSIM netlist. In this case, there will be 1 input port and 2 output ports (except if you have the demo version and if

### PSIM SIMULATION SOFTWARE TUTORIAL How to use the Simcoupler

SimCoupler fuses PSIM with MATLAB/Simulink® by providing an interface for co-simulation. Part of a system can be implemented and simulated in PSIM and the rest in Matlab/Simulink. It's straightforward, easy to set-up and requires minimal user input. With SimCoupler, there's no need to choose between tools.
