A zoo is a place where animals live in captivity and are put on display for people to view. The word "zoo" is short for "zoological park." Zoos contain wide varieties of animals that are native to all parts of the Earth. Though people have kept wild animals for thousands of years, those collections have not always resembled modern zoos. The first zoos were created as private ...

An endangered species is a type of organism that is threatened by extinction. Species become endangered for two main reasons: loss of habitat and loss of genetic variation. Loss of Habitat A loss of habitat can happen naturally. Dinosaurs, for instance, lost their habitat about 65 million years ago. The hot, dry climate of the Cretaceous period changed very quickly, most likely because of an ...
