By the mid 1980s, SPAX moved its engineering, sales, warehouse and administration to Bicester in Oxfordshire, the heart of Formula 1 country. At this point, the company was a market leader in suspension for racing, rallying and road cars. In the early 1990s, the factory was moved to Walsall in the heart of England’s manufacturing area.

About Spax
The PAX S80 offers store and forward technology, allowing merchants to accept payments even when a connection isn’t available for authorization. With store and forward, merchants can enter payment information, save it to the terminal’s internal memory, and automatically process and forward it for authorization and settlement at a later time ...

Moving out back, K-PAX went with Ohlin's TTX40 MkII shocks again fitted with their blow off kit. Oddly enough, the TTX40 uses twin-tubes instead of the nearly ubiquitous monotube. The K-PAX Racing rear subframe allows for a full spherical bearing conversion and has corrected a lot of the ride and NVH compromises the S60 had when it rolled out ...
