releases oxygen back to you, which is both beneficial and important for your health.

Should You Sing to Your Garden? - Farmers' Almanac

Some scientists say it isn't just music, but sound vibrations that affect plants. In a 2014 study, scientists Heidi Appel and Rex Cocroft of the University of Missouri found that tiny mustard...

Should I sing to my plants? Yes, science says - Los ...

The Singing Plants Todd awoke to singing. The singing was light and airy. It reminded him of a sunrise. Well that's appropriate, thought Todd, it's so early the sun is probably just rising. As his mind grew more awake, Todd realized that he didn't know where the music was coming from. He checked his radio, as well as his phone. Nothing.

All you have to do is attach two electrodes to the plant's leaves, plug them into the PlantWave, and sit back in awe as you listen to the symphony that your very own plant is composing. It sounds ethereal—like a forest tune you might hear in The Legend of Zelda or an ambient playlist you'd put on to help you get into meditation.

The PlantWave Device Allows You to Hear Your Plants Sing

Singing to the Plants is designed to inform a wider audience—and gently bust some myths—by presenting this almost literally kaleidoscopic phenomenon through a number of distinct lenses: anthropology, ethnobotany, pharmacology, psychology, international law, cultural politics, and magic both crafty and occult.
