**New high availability and disaster  
recovery benefits for ...**

Introduced in SQL Server 2016, a distributed availability group allows an availability group to span availability groups configured on different clusters. This decouples the requirement to have the nodes all participate in the same cluster, which makes configuring

# Access PDF Sql Server 2016 High Availability Unleashed Includes Content Update Program

disaster recovery much easier.

## **Disaster recovery for SQL Server - SQL Server | Microsoft Docs**

To enable AlwaysOn feature, Open SQL Server Configuration Manager, Right-click SQL Server instance and go to properties, Select AlwaysOn High Availability tab section and tick
