TestLink Tutorial: A Complete Guide - Guru99

Create test cases. If you haven't already, create a test plan and requirement-based test suites. Select a requirement-based test suite. In the right-hand pane, choose + (New) and then choose New test case. The test suite shown here was created from a User Story work item in the team's backlog board. When you add a test case to this kind of suite, the test case is automatically linked to the backlog item.
