During cross-cultural moves routines are usually among the first to get disrupted, as everything from the foods we eat to our weekend activities undergoes change.

Understanding Transition Stress | Psychology Today

Abstract. Research examined psychological and sociocultural adjustment during cross-cultural transitions in two groups of sojourners. One hundred and forty-five Malaysian and Singaporean students in New Zealand and 156 Malaysian students in Singapore participated in the studies. In line with past sojourner research, results revealed that locus of control, life changes, social difficulty, and social support variables predicted psychological adjustment during cross-cultural transitions.
