TRUST: THE SOCIAL VIRTUES AND THE CREATION OF PROSPERITY

Social capital, which is the ability of people to work together for common purposes, "arises from the prevalence of trust in a society," and cannot be acquired through rational investment decisions. Rather, acquisition of social capital "requires habituation to the moral norms of a community and the acquisition of virtues like loyalty, honesty and dependability."

Modern cosmologists ask us to picture a saddle-shaped universe, where time and space are curved essences. Francis Fukuyama, in *Trust: The Social Virtues and the Creation of Wealth*, his first book since his seminal post-Cold War work, *The End of History and the Last Man*, suggests the consideration of saddle-shaped societies.

Trust: The Social Virtues and the Creation of Wealth ...

Focusing on such factors as trust (a community's shared expectation of honest, cooperative behavior outside the family) and social capital (the values created by tradition, religion, or other means), the author examines the ability of various peoples to organize effectively for commercial purposes without relying on blood ties or government intervention.
