The acute management of gross hematuria with obstructing clots requires the placement of a large urethral Foley catheter, typically 22-24 French in size. Using a Toomey syringe and saline, the bladder may be hand irrigated to evacuate the obstructing clots.

### Urologic Emergencies - American Urological Association

In publishing terms, an edition is technically all copies of a book that were printed from the same setting of type and the book is only described as a second edition if substantial changes are made to the copy. However, in collecting terms, a very rough description of first edition would be when it is the first appearance of a work in question.
