Y House Steven Holl Analysis

On a hilltop site in a remote section of the Catskill Mountains, the "Y" House ascends the hill, splitting to form two arms, ending in balconies. The "Y" cuts a slice of sky and draws the sun into the heart of the house. Like a found forked stick, the Y makes a primitive mark on a vast site. The

Y HOUSE - STEVEN HOLL ARCHITECTS

Y House by Steven Holl Architects in the Catskills Mountains, New York, was built between 1997-1999. The Y-shaped house splits into two forms, both with south-facing balconies. The houses balconies are facing the valleys of Catskills Mountains.

Y House Steven Holl Analysis

The Y House is a perfect representation of Holl's genius creating classic 21st-century luminist design, borrowing from 19th-century luminist painters to blend space and light. The Y House is located three hours away from New York City, and only an hour from Albany and Hudson, a beloved cultural destination of the Hudson Valley.

The Y House | Hudson Valley Real Estate

Located in a lonely mountain setting less than an hour's drive from Albany, New York, the firetruck-red Y House is an alluring example of Steven Holl's residential work. Public and private spaces alternate throughout the layered interior, which is split across two arms that branch off from the main entrance.

Y House by Steven Holl - Dwell

Y House, by Steven Holl. February 23, 2007 at 3:28 pm (Architecture) Well, to start off, I would like to show a little work that I find extremely significant in the whole scene of architecture. Steven Holl is an American architect. Just take a look at the "Y House." This is the "Y House."

Y House, by Steven Holl | Something Interesting Methinks

The Y House is situated on a hilltop from Y HOUSE. Designed by Steven Holl architects, the house has two arms, just like the letter from its name, that end in two balconies. The Y form is proper to bring the sun light right in the middle of the house. The geometry contains a sectional flip of public and private but also for day and night, with bedrooms below and living above. Maximum wall ...

Y HOUSE by Steven Holl Architects - Nimvo

of the analysis is the surrounding of Y-house, which is supposed to be no high buildings and trees to affect the daylight of Y-house. The simulation of daylight distribution is fairly new a method to evaluate the architecture design, the especially he theoryt on this knowledgis published rarely with systematical discussion and study.

Daylight Design and Analysis of Y House

Set on a hilltop in New York's Catskill Mountains lies an iron-oxide red house built in the shape of the letter Y. The steel and timber-clad Catskills home was built in 1999 to a design by Steven Holl and features two arms, which branch off from a central space and end with glazed walls and balconies.

Steven Holl's Y House is for sale in the Catskills

Steven Holl and the Y House Another project in which the architect underlines the central concept of his mindset, namely that a project must rest on a leading concept, is the Y House . The Y shape has to do with both Holl's will to make each and every one of his projects symbolic and metaphorical, and with the importance of opening the residence outwards.
